

Day 2 – Takeaways / Key Recommendations

Key recommendations

- ✓ Consensus on the large benefits of international standards for industry (trade, ease of keeping up with updates)
 - ⇒ Promotion / Dissemination activities
- ✓ Industry and all relevant stakeholders (SMEs, Societal Stakeholders) should be part of the solution (standards) and not to live with the solution made by others
 - ⇒ Exchange of best practices between BIS and CEN-CENELEC
- ✓ 3 important concepts for international development of standards: inclusiveness, good representations of needs and consensus
 - ⇒ Identify what are the specific challenges for Indian Industry to take part in international standardization activities and find solutions to these issues
- ✓ Participation in international standardization activities
 - ⇒ Parallel voting & no duplication of work (=> benefits for the stakeholders)
 - ⇒ Reinforce the links between various standardization organizations from different sectors (ITU, IEC, ISO) also at national level
