

Two Organizations

Recognition by EU Regulation 1025/2012
= European standardization as a tool for the European
single market and the Private Public Partnership

Coherence at European level

European Standardization – Close Link with International Standards

A European Standard (EN) gives access to *the international market and to all 34 European countries* due to *technical alignment*.

Impact on Markets

1 European Standard

34 identical national standards all conflicting
standards removed

1 Global Solution

whenever possible, Europe's preference is for
International Standards

European Standards = International Standards
whenever possible and where markets push for it

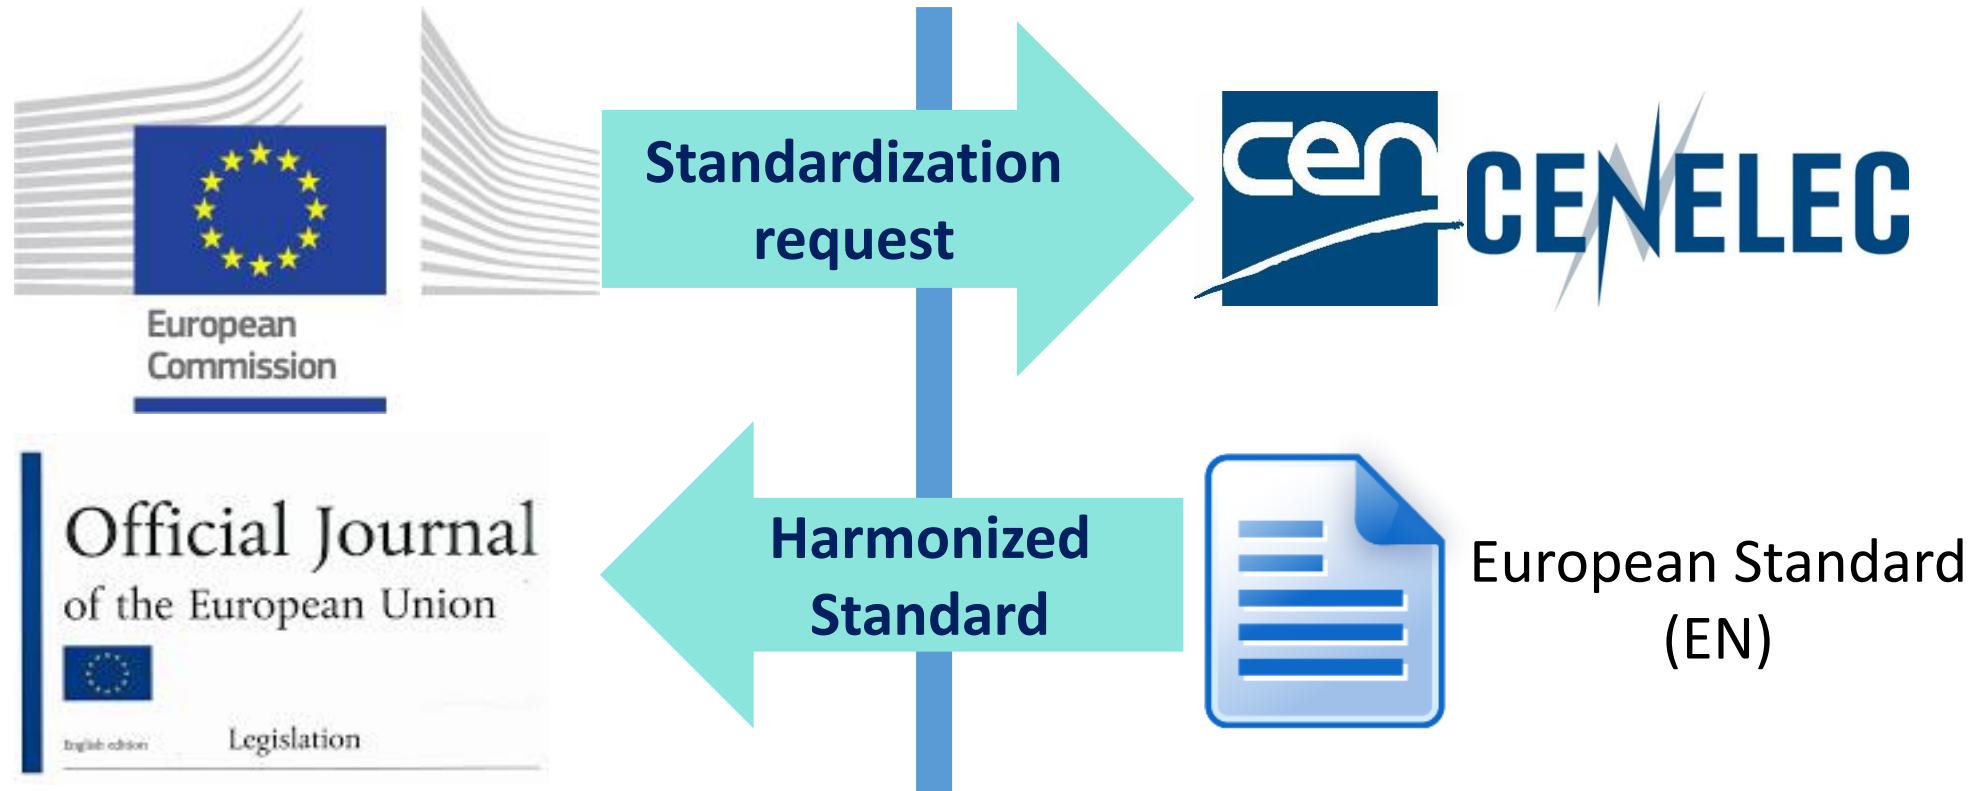

**access to a market of 600
million consumers**

access to a global market

The EU Smart Regulation success story

The “New Approach” & NLF – Public-Private Partnership

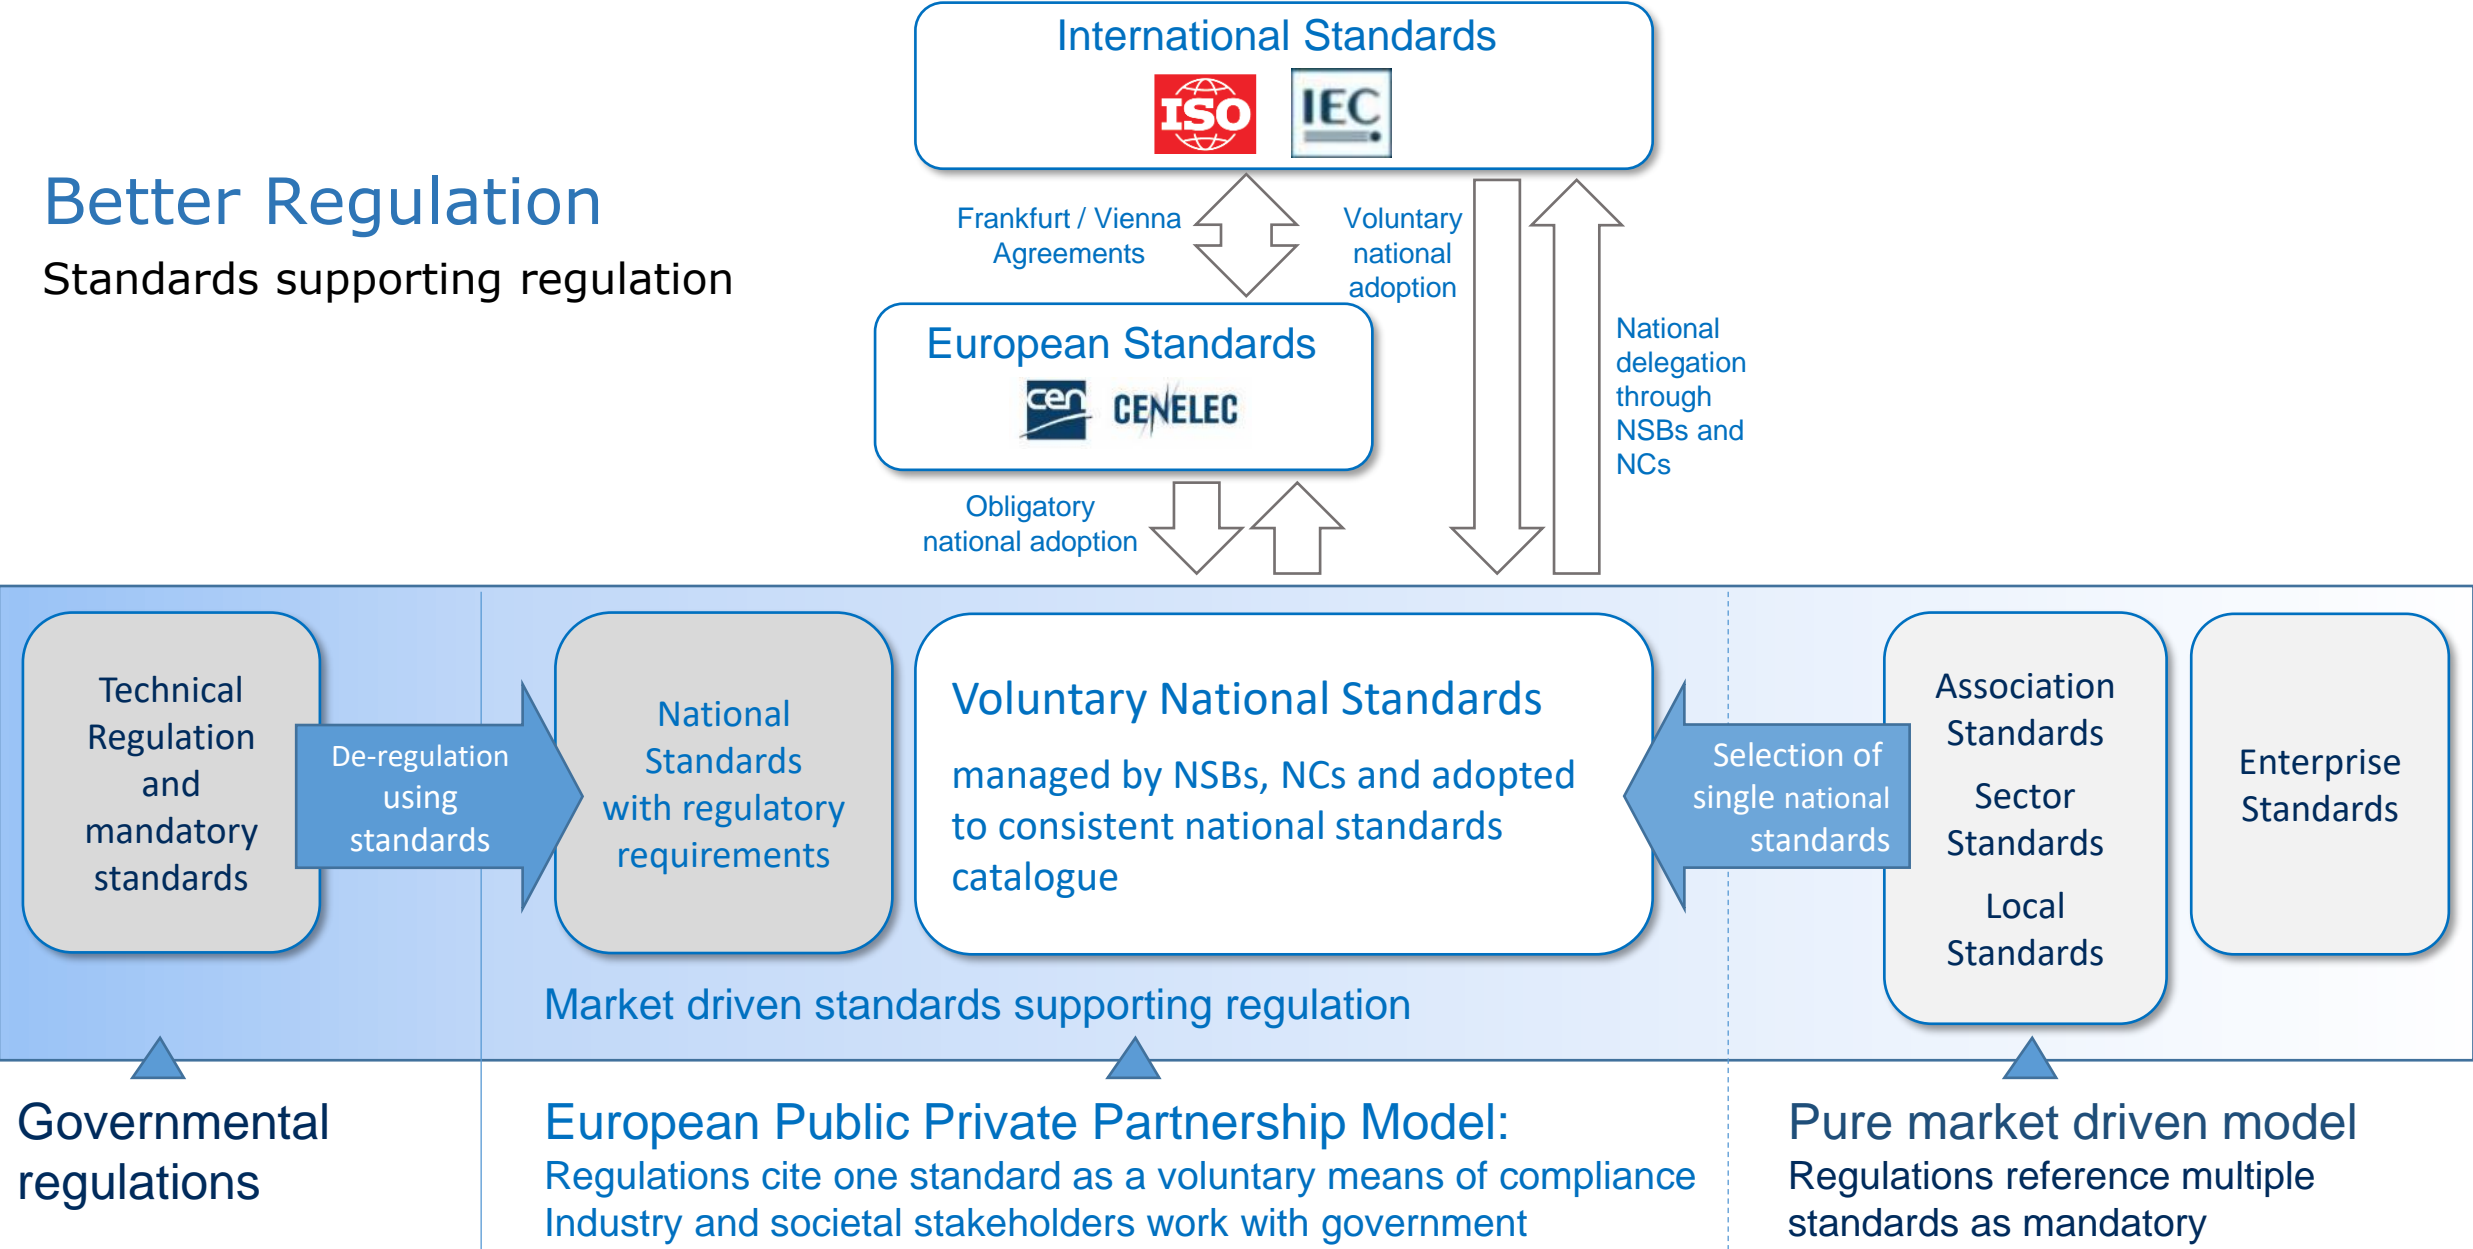

Presumption of conformity
Standards remain voluntary

~4.200 harmonized standards **(25% only)** supporting EU legislation, **highly aligned with ISO/IEC**
(41,82% CEN hENs Identical to ISO publications; 76,12% CENELEC hENs Identical to IEC publications, 2019 data)

European Standardization = Public Private Partnership

Better Regulation

Standards supporting regulation

Standards Build Trust

CEN and CENELEC standards help Europe meet today's technological and societal challenges as well as those we will face tomorrow. They support Europe's priorities through improving business performance and creating trust.

CEN and CENELEC can help you achieve your policy objectives

A harmonised Single Market

Creating value for Europe while offering a cost-efficient and easier way to show product compliance with Union law.

A competitive European industry ready to lead in international trade

Supporting European technological change while promoting European interests in international standards.

Trust in new technology Providing European best practices to lead the digital transformation of society with citizens' interests in mind.

Enhanced innovation for Europe

Enabling research and scientific results to reach the market.

The Sustainable Development Goals of the UN 2030 Agenda

Implementing the sustainable use of resources and energy while protecting consumers, workers and the environment.

CEN-CENELEC Cooperation with India

Cooperating Partner: Bureau of Indian Standards (BIS) & India Smart Grid Forum (ISGF)

CEN-CENELEC Memorandum of Understanding with BIS is in progress, expected closure 2020:

- Active topics are EN-115 upgrade, EN 301 549, Machinery Safety, Solar PV, Smart Cities, Cableways, Services, e-Mobility etc.
- Other topics evolving through EU-India dialogue & other EU projects are Circular Economy, Railways etc.

CEN-CENELEC Cooperation Agreement with ISGF on a technical level, share information, development & promotion of standards of Smart Grids & Smart Meters

CEN-CENELEC-BIS Engagement & Strategy Dialogue established in November 2019

- Coordination on strategy at international level
- Supporting India's deeper technical alignment with international level

CEN-CENELEC Priority India

***Chair:** Mr. Wim De KESEL*

***Secretariat:** SESEI – ESTSI, Priority India - CEN-CENELEC Management Centre*

***Composition:** 7 CEN-CLC members, industry representatives, European Commission, EFTA*

***Topics:** Installation Rules, Services, Innovation, Education about Standards etc.*

Our Recommendations

1. Primacy of International Standards

International standards are efficient and recognized tools for regulation, conformity assessment, market surveillance. They provide level playing field for global trade.

- 1) We encourage our partners to engage in international standards setting (ISO/IEC/ITU)
- 2) We encourage the use of international standards in India as in all countries, and to avoid diverging national standards as much as possible, introducing National Deviations only for national specificities when necessary
- 3) We recommend that new work items or subjects to be always brought at the adequate international standardization body (ISO, IEC, ITU) first to ensure the best use of stakeholder resources
- 4) We welcome any opportunity of meetings between Indian and EU experts
