Mr. Christophe Colinet
Chairman, ETSI ATTM SDMC
(Sustainable Digital Multiservice for Cities) working group

Christophe COLINET is the Smart City project manager for Bordeaux metropolis since 2016, coordinating European projects and more specifically "Sharing Cities", an H2020 SCC1 lighthouse project. He is the Bordeaux representative within the Eurocities Digital forum.

At ETSI, he is the EG4U secretary (EG4U: The European non-governmental organisation (NGO) of Information and Communication Technology (ICT) Users). This NGO, dedicated to energy management & waste monitoring, has been created early December, 2015, by ICT(Information & communications technologies) users, members of ETSI Industry Specification Group (ISG) called Operational energy Efficiency for Users (OEU), based in Sophia Antipolis (France)

Since 2016, he chairs an ETSI ATTM SDMC (Sustainable Digital Multiservice for Cities) working group dedicated to providing technical specifications for the industry in accordance with city's needs.

He is graduated in telecommunications from E.S.E.O (Upper Electronics School from West) based in Angers (France).

* Eurocities: Main network of major European cities in Brussels. This NGO represents over 140 major European cities and their partners in the European Commission and Parliament.
