Mr. Lal Chandran
Co-Founder and CTO
iGrant.io

Lal Chandran co-founded iGrant.io and serves as its Chief Technology Officer. This company, headquartered in Stockholm, Sweden, is at the forefront of offering SW as a service for consented data exchange and verification, utilising advanced digital wallet technology. iGrant.io's data exchange products cater primarily to the public and healthcare industries, ensuring access to the right data - lawful, scalable and verifiable.

With a career spanning over 20 years in software product development, Lal is adept at building new products, taking them to market and scaling them. He holds a Master's in Computer Science and Engineering from the University of Liverpool and a Bachelor of Technology from the National Institute of Technology, Calicut, in India. Additionally, Lal has completed a certificate in Data Law from the London School of Economics and Political Science. His professional journey includes various roles as CTO, technology head, product manager, developer and leader. Before establishing iGrant.io, he worked with MNCs such as Larsen and Toubro, British Telecom, and Ericsson, working in India, the UK, Ireland, Finland, and Sweden.
